# Samantha Sanchez

Engineering and Computer Science Internship Candidate

Fall 2023

Innovation

The technology being developed for the Disney theme parks, cruise ships and resorts is unlike anything I have ever seen. I would love to contribute my skills to help create world-class stories and experiences for guests to enjoy.

THE **5** KEYS

SAFETY · COURTESY · INCLUSION · SHOW · EFFICIENCY

Company Culture

Disney values the importance of the ideas and perspectives which people from different cultural backgrounds bring. Its efforts to create and maintain an inclusive and respectful work environment, inspire me to be a part of the company.

World-Class Talent

To tackle the most complex problems, Disney employs world-class experts. I would love to be given the opportunity to work alongside Disney professionals and learn more about engineering in the entertainment industry. This opportunity will be a great experience for me to grow as an engineer. I have great passion and knowledge of Disney products and property, and I am always ready to learn something new.
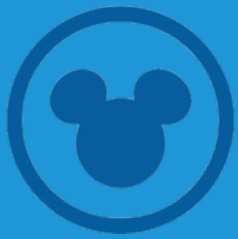

Why Samantha?

Experience and Skills

- Expertise in C, C++, Java, Python.
- Strong electronics and computer systems background.
- Performed unit testing to ensure optimal code performance.
- IT support specialist.
- Disney College Program Alumni.

Quick Learner

- Ability to observe and learn quickly.
- Prompt to deliver results within the time frame.
- Push for better solutions and continuous improvement.

Leadership

- Serving as president for Girls Who Code at UCF.
- Technology team project lead for Engineering Leadership and Innovation Institute.

Roadmap to Success

30-Days
Exploration Stage

- Complete Onboarding tasks.
- Learning required software/skills.
- Get knowledge about other teams.
- Understand expectations for interns at Disney.
- Knowing team members.

90-Days
Execution Stage

- Having clear visualized knowledge of the project goal.
- Applying knowledge and skill to the assigned project.
- Reaching for help, if any doubts.
- Updating manager/supervisor on a regular basis.
- Sharing new ideas and solutions.
- Delivering results within the time frame.

180-Days
Feedback Stage

- Get the manager's feedback on internship performance.
- Create a professional network.
- Reflect on knowledge and skills gained during internship.

THANK YOU!

For sharing your time and for providing me the opportunity to speak with you about my career aspirations.

It would be an honor to join Disney as an intern this summer/fall. I hope I obtain the scope to contribute to this innovative team alongside exceptional minds to continue developing more tools for themed entretainment.
